Blood examinations; reports

Sec. 3. (a) A person that examines the blood of an individual described in section 2 of this chapter for the presence of lead must report to the state department the results of the examination not later than one (1) week after completing the examination. The report must include at least the following:

- (1) With respect to the individual whose blood is examined:
 - (A) the name;
 - (B) the date of birth;
 - (C) the gender;

- (D) the race; and
- (E) any other information that is required to be included to qualify to receive federal funding.
- (2) With respect to the examination:
 - (A) the date;
 - (B) the type of blood test performed;
 - (C) the person's normal limits for the test;
 - (D) the results of the test; and
 - (E) the person's interpretation of the results of the test.
- (3) The names, addresses, and telephone numbers of:
 - (A) the person; and
 - (B) the attending physician, hospital, clinic, or other specimen submitter.

(b) If a person required to report under subsection (a) has submitted more than fifty (50) results in the previous calendar year, the person must submit subsequent reports in an electronic format determined by the state department.

IC 16-41-39.4-4

Distribution of information

Sec. 4. (a) The state department, the office of the secretary of family and social services, and local health departments shall share among themselves and with the United States Department of Health and Human Services and the United States Department of Housing and Urban Development information, including a child's name, address, and demographic information, that is gathered after January 1, 1990, concerning the concentration of lead in the blood of a child less than seven (7) years of age to the extent necessary to determine the prevalence and distribution of lead poisoning in children less than seven (7) years of age.

(b) The state department, the office of the secretary of family and social services, and local health departments shall share information described in subsection (a) that is gathered after July 1, 2002, among themselves and with organizations that administer federal, state, and local programs covered by the United States Department of Housing and Urban Development regulations concerning lead-based paint poisoning prevention in certain residential structures under 24 CFR Subpart A, Part 35 to the extent necessary to ensure that children potentially affected by lead-based paint and lead hazards are adequately protected from lead poisoning.

(c) A person who shares data under this section is not liable for any damages caused by compliance with this section.

As added by P.L.99-2002, SEC.10. Amended by P.L.1-2003, SEC.63; P.L.135-2005, SEC.6.

IC 16-41-39.4-5

Annual report

Sec. 5. (a) The state department shall, in cooperation with other

state agencies, collect data under this chapter and, before March 15 of each year, report the results to the general assembly for the previous calendar year. A copy of the report shall be transmitted in an electronic format under IC 5-14-6 to the executive director of the legislative services agency for distribution to the members of the general assembly.

(b) The report transmitted under subsection (a) must include for each county the following information concerning children who are less than seven (7) years of age:

- (1) The number of children who received a blood lead test.
- (2) The number of children who had a blood test result of at least ten (10) micrograms of lead per deciliter of blood.
- (3) The number of children identified under subdivision (2) who received a blood test to confirm that they had lead poisoning.
- (4) The number of children identified under subdivision (3) who had lead poisoning.
- (5) The number of children identified under subdivision (4) who had a blood test result of less than ten (10) micrograms of lead per deciliter of blood.
- (6) The average number of days taken to confirm a blood lead test.
- (7) The number of risk assessments performed for children identified under subdivision (4) and the average number of days taken to perform the risk assessment.
- (8) The number of housing units in which risk assessments performed under subdivision (7) documented lead hazards as defined by 40 CFR 745.
- (9) The number of housing units identified under subdivision (8) that were covered by orders issued under IC 13-14-10-2 or by another governmental authority to eliminate lead hazards.
- (10) The number of housing units identified under subdivision (9) for which lead hazards have been eliminated within thirty (30) days, three (3) months, and six (6) months.
